

FS 131

Powerful brushcutter for landscape maintenance

Product

Petrol Brushcutter - FS 131

RRP

\$849.00
(incl. GST)

Particularly powerful petrol brush cutter for working on large areas of tough grass.. A simplified start-up sequence for convenient starting, bike handle, control handle with stop button, 4-MIX® engine with larger tank for longer working time, rigid drive shaft, double shoulder harness.

Technical Details

Displacement cm ³	36.3
Power output kW	1.4
Mowing Head Type	Mähkopf AutoCut 25-2
Weight kg ¹⁾	5.8
Sound pressure level with plastic tool dB(A) ²⁾	98
Sound power level dB(A) ²⁾	109
Total length cm ³⁾	1800
Tank volume ml	710

¹⁾ Weight excluding fuel, cutting tool and guard

²⁾ K-factor according to DIR 2006/42/EC = 2.5 dB (A)

³⁾ Without cutting tool

Features

Standard

STIHL 4-MIX Engine

You can always rely on STIHL to keep setting new benchmarks this time with 4-stroke mixed lubrication technology. The STIHL 4-MIX engine, which runs on a fuel-oil mix just like a 2-stroke, offers the benefits without the compromises of 4-stroke power. STIHL 4-MIX engine technology provides fast acceleration, more power, added torque, lower noise, reduced emissions and increased fuel efficiency to complete jobs quickly, quietly and more easily.

Ergonomic bike handle

When used in conjunction with a harness, the bike handle enables a smooth mowing action. Ideal for working on large areas and allows the machine to be easily guided, thus reducing fatigue.

STIHL Anti-vibration system

The STIHL anti-vibration system is available in a one-point version for smaller models and in an especially effective four-point version for larger machines starting with the STIHL. It reduces handle vibration for easy and comfortable operation.

Automatic decompression

The decompression system automatically opens the intake valve during engine start-up. This prevents pressure peaks and considerably reduces the effort needed to pull the starting rope.

Accessories

GrassCut - 230-4 / ID 25.4MM

The cutting blade with four teeth is robust, for large areas, has a high cutting capacity in dense growth, such as grass and weeds.
