

HT 133

Powerful top-model for professional tree maintenance

Product

Petrol Pole Pruner - HT 133 -
30cm/12"

RRP

\$1,699.00
(incl. GST)

Pole pruner with an ideal power to weight ratio for powerful cutting work in orchards and professional tree maintenance. Lightweight, compact transmission with captive nut on the sprocket cover, maximum cutting performance due to the 1/4" PM3 saw chain, 4-MIX® engine with simplified start system. Highly ergonomic and very stable due to the reduced weight of the square-cut telescopic shaft. Total length: 270 – 390 cm.

Technical Details

Displacement cm³	36.3
Weight kg ¹⁾	7.2
Bar Length cm	30
Total length (max) cm ²⁾	3900
Tank volume l	710.00
Saw chain pitch	1/4"P

¹⁾ Weight excluding fuel, guide bar or saw chain

²⁾ With cutting attachment

Features

Standard

Multi-function control handle

All controls for motor control are integrated in the multi-function handle. The operation of the device is easy and safe - the hand remains on the handle.

Anti-vibration system

Intense vibration at the handles of power tools can lead to longer-term effects of blood vessels in the hands and arms. STIHL have therefore developed an effective anti-vibration system where by the oscillations from the machines engine are dampened which significantly reduces vibrations at the handles allowing for more comfortable and safer operation.

Telescopic pole

With the practical telescope shaft, that can be fixed from 2.70m to 3.90m, you can easily reach branches up to a height of 5m without having to leave the ground.

Automatic decompression

The decompression system allows some of the compression pressure in the cylinder to escape, so less force on the starter rope is needed.

Manual fuel pump (Purger Bulb)

A small fuel pump delivers fuel to the carburettor at the touch of a button. This reduces the number of starting strokes required from a cold start.

Carrying system

The comfortable backpack system - which can be adapted to suit the user's shoulders, back, hips and upper thighs and also serves as practical transportation aid. With soft padding for increased comfort during prolonged use and when working on large areas.

Accessories

Bio Plus Bar & Cutter Lube - 1 litre

Particularly eco-friendly with outstanding lubrication and adhesive properties. STIHL BioPlus oil is derived from plants and completely decomposes in the ground within a short space of time (tested according to OECD 301 B). It has therefore been awarded the German 'Blue Angel' ecology mark and the Dollarspean Eco-Label.

Oil - Chain & Bar - SynthPlus - 1L

Do you question which lubricant is suitable for which cutting attachment, climate zone or type of wood? No need to puzzle over the

answers with semi-synthetic STIHL chain lubricant. Our high-performance lubricant is extremely suitable for all moving saw chains. Well protected. STIHL chain lubricant effectively protects saw chains from wear. Thanks to its high temperature resistance, cutting attachments are optimally protected even from short-duration maximum thermal loads. Smoking is inhibited. Keeps on flowing. Even at temperatures down to -20° C, STIHL chain lubricant retains its outstanding flow properties. Selected additives prevent resinification of the cutting attachment and other treated parts. And you can start using the saw straight away, even after an extended idle period.
