

RE 120
Strong High-Pressure Cleaner for Home & Garden

Product
RE 120 High-Pressure Cleaner
RRP
\$429.00
(incl. GST)

Powerful high-pressure cleaner with extra features. Aluminium pump head, brushless induction motor, integrated wheel kit, dosable cleaning agent spray set, rotary nozzle, adjustable fan jet nozzle with pressure regulation, anti-drill quick-release coupling on the trigger and tool, park position for switching off the sprayer when taking breaks, sturdy and durable 8 m steel-reinforced high-pressure hose, reinforced transport handle, particularly long sprayer for convenient operation, aluminium telescopic handle, storage compartment on the side with integrated nozzle and power cable storage. PLEASE NOTE: This item has limited stock availability.

Technical Details

Operating pressure bar	125
Maximum pressure bar ¹⁾	140
Maximum water throughput l/h	500
Max. water supply temperature °C	40
Weight kg	19.9
Power cable length m	5
Rated Voltage V/Hz	240
Power cable length m	5
High-pressure hose length m	DN6 - 8

¹⁾ Maximum pressure system

Features

Standard

Rotary nozzle

Powerful rotary nozzle for tackling stubborn dirt on hard-wearing surfaces. The rotary motion combines the cleaning power of a concentrated pencil jet with the capacity to clean large areas.

Fan jet nozzle, adjustable pressure

Fan jet nozzle with pressure regulation to clean different types of surfaces quickly and effectively.

Practical storage compartment

The storage compartment on the side of the tool provides several options for the practical and protected storage of the nozzles and power cable.

Cable hook

The two cable hooks allow the cable to be wound up and stored neatly and securely on the tool. The rotatable orange cable hook enables release of the entire cable in one go – gone are the days of tedious unwinding.

Cleaning agent spray set with measuring system

The spray set delivered with the tool makes it possible to add cleaning agent to the spray jet in order to tackle stubborn dirt. The spray set is also easy to attach to the spray lance.

Aluminium telescopic handle

The high-quality telescopic handle on the back of the tool enables convenient transport and space-saving storage of STIHL high-pressure cleaners.

Induction motor

The sturdy, brushless induction motor offers superb performance and long service life.

Aluminium high-pressure pump

Sturdy and durable aluminium high-pressure pump of superior quality.

Anti-drill and quick-release coupling

The anti-drill and quick-release coupling makes setting up the high-pressure cleaner easier and prevents the high-pressure hose from tangling while you work, allowing the full length of the hose to be used.

Rotating spray lance

The rotating spray lance allows adjustment of the high-power spray to perfectly suit any working conditions.

Park position

The assembled lance can be mounted on the tool when taking breaks from working and when storing the gun for a longer period. All tools also feature a holder for storing the high-pressure trigger.

Steel reinforced high pressure hose

The high pressure hose is reinforced with steel making it very durable and longer lasting.
