

MS 201 TC-M

Powerful, compact 1.8kW top handled chainsaw with M-Tronic

The MS 201 TC-M is STIHL's most powerful top handled chainsaw. Comes as standard with M-Tronic and 2-MIX technology, providing optimum engine performance from the start. The captive nut on the sprocket cover allows for quick changing of the chain. The lightweight guide bar reduces the overall weight and keeps the saw perfectly balanced. Top handled saws are specially designed for working in an aerial environment and can only be used by trained professionals.

Product

Petrol Chainsaw - MS 201 TC-M - 30cm/12"

Petrol Chainsaw - MS 201 TC-M - 35cm/14"

Technical Details

Displacement cc	35.2
Power output kW/bhp	1.8/2.4
Weight kg ¹⁾	3.7
Power-to-weight Ratio kg/kW	2.1
STIHL Oilomatic saw chain pitch/type	3/8 " P
Tank volume mL	310.00

¹⁾ Without fuel, without bar and chain

Features

Standard

STIHL M-Tronic (FT)

For a cold start, the STIHL M-Tronic only needs one start position on the combi-lever. After starting, you can immediately power up to full speed. The amount of fuel required is precisely calculated by the system and supplied as needed. Otherwise, start in position I as usual.

Advanced combustion technology

Four overflow channels swirl the fuel-air mix before ignition, allowing for optimum combustion and highly efficient performance. The result: lower consumption and high torque across a broad rpm range.

STIHL anti-vibration system

Intense vibration at the handles of power tools can lead to longer-term effects of blood vessels in the hands and arms. STIHL have therefore developed an effective anti-vibration system where by the oscillations from the machines engine are dampened which significantly reduces vibrations at the handles.

Compensator

This controller in the carburettor prevents the fuel-air mixture getting richer as the air filter becomes clogged. The correct quantity of fuel is delivered to the carburettor depending on the quantity of air passing through the air filter. This keeps the fuel/air ratio in the combustion mixture constant and hence also the engine power. The filter doesn't need to be cleaned until an appreciable drop in power occurs.

Captive bar nuts

Bar nuts held captive in the sprocket cover will not get lost when changing over the cutting attachment.

Controlled-delivery oil pump

The exact chain oil output can be adjusted manually for varying conditions, allowing for a reduction of up to 50%.

Single-lever master control

PLEASE NOTE: Reserving STIHL Products

These products can be reserved online with no obligation and picked up at your local STIHL Dealer. As your satisfaction is of particular importance to us, we provide you with extensive in-store personal instruction including safe handling plus professional advice and service to ensure you get the most out of your STIHL purchase. * Sale price and availability may vary from store to store.

All important functions such as start, choke, throttle and stop are operated via a single lever.

STIHL Ematic-System

The Ematic chain lubrication system ensures pinpoint lubrication of the saw chain links and guide bar rails. When used with STIHL OILOMATIC saw chain, it will provide maximum lubrication, longer wear and less oil consumption than conventional methods of chain lubrication. The Ematic system can reduce bar oil consumption up to 50%.

Accessories

Chainsaw Case - Woodsman

Made of durable plastic. For safe storage and transportation of petrol and electric chain saw models: MS 170, 171, 181, 201 T, 192 C-E, 211, 230, 231, 251, 240 C-M, 250, 261, 362, MSE 140, 180, (not MSE-C versions). Not suitable for MS 441.
