

## BR 450 C-EF

BR 450 C-EF backpack petrol leaf blower: Powerful and easy to start at the push of a button

### Product

Petrol Blower - BR 450 CE-F - Backpack

### RRP

**\$949.00**  
(incl. GST)

Very powerful blower with STIHL ElectroStart for convenient restart on the back. Additional pull starter with STIHL ErgoStart for starting at temperatures below 0°C. Rubberised, two-component handle, STIHL anti-vibration system, wide shoulder straps, 2-MIX engine, straightforward starting technology, locking throttle lever with stop button, infinitely variable blower tube adjustment, tool-free handle position adjustment.

### Technical Details

Displacement cm³	63.3
Power output kW	2.9
Weight kg <sup>1)</sup>	11.5
Blowing force N <sup>2)</sup>	28
Max. air speed m/s	99
Max. air throughput m³/h <sup>3)</sup>	1430
Tank volume ml	1700

<sup>1)</sup> Weight excluding fuel, fully assembled

<sup>2)</sup> Combination of air speed and air throughput

<sup>3)</sup> Without blower attachment/nozzle

### Features

## Standard

### STIHL ErgoStart (FT)

The STIHL ErgoStart makes starting the tool more convenient by enabling a smooth, even pull. The start-up sequence benefits from an additional spring between the crankshaft and start-up mechanism making the whole procedure less strenuous. Even a gentle pull of the starter cord effortlessly starts up the engine.

### Electrostart (F)

Thanks to Electrostart, users can restart the tool quickly and easily at the push of a button – without having to take it off their backs first. This saves them extra hassle and is the perfect solution for short breaks. The lithium-ion battery is recharged while the tool is in use.

### STIHL 2-MIX-Motor

The 2-stroke engine with 2-MIX technology convinces with powerful engine performance, outstanding performance and excellent volume torque curve for high cutting performance and pulling power. Despite its power, the engine operates with low emissions that the strict specifications of the emissions standard level II, already be met. (Fig. Similar)

### Blower tube with adjustable length

The blower tube can be fully adjusted to the size of the user or to suit the job.

### Tool-free adjustment of the handle position

The handle position can be quickly changed without any tools for an optimal fit with the size of the user.

### PLEASE NOTE: Reserving STIHL Products

These products can be reserved online with no obligation and picked up at your local STIHL Dealer. As your satisfaction is of particular importance to us, we provide you with extensive in-store personal instruction including safe handling plus professional advice and service to ensure you get the most out of your STIHL purchase. \* Sale price and availability may vary from store to store.

### STIHL Anti-Vibration System

Intense vibration at the handles of power tools can lead to longer-term effects of blood vessels in the hands and arms. STIHL have therefore developed an effective anti-vibration system where by the oscillations from the machines engine are dampened which significantly reduces vibrations at the handles.

### Multi-function control handle

This houses all the engine controls. Easy, comfortable thumb-operated control means the operator's hand never leaves the handle.

### Accessories

#### Fuel Stabiliser - 236ml

STIHL Fuel Stabiliser eliminates the need to drain fuel prior to storage. It also contains a water remover to prevent corrosion and carburettor cleaner to restore power. 15ml treats 5 litres of fuel.

#### Oil - 2 Stroke - HP - 100mL

STIHL 2 stroke Lube is a specially developed lubricant for air-cooled two stroke engines. It can be mixed with leaded or unleaded petrol. The formulation utilises a mixed additive system to ensure a minimal ash deposit formation. STIHL 2 Stroke Lube provides the following performance benefits: It contains diluent; mixes easily with fuel; controls corrosion excellently; has a minimal ring wear and piston scuffing; cleans burning, assisting in maintaining cleaner combustion chambers, ports and mufflers.
