

BR 700

BR 700 backpack petrol leaf blower: for professional use to efficiently clear large areas of leaves and cuttings

Ultra high-performance professional blower with length-adjustable blower tube and handle position adjustment without the need for tools. High blowing force, low weight. Ideal for easily removing grass and hedge cuttings, leaves and debris from large areas. Rubberised 2-component handle, STIHL anti-vibration system, wide shoulder straps, hip belt, 4-MIX engine, simple start logic, infinitely variable locking throttle lever with stop button, carry handle.

Product

Petrol Blower - BR 700 - Backpack

RRP

\$1,099.00
(incl. GST)

Technical Details

Displacement cm ³	64.8
Power output kW	2.8
Weight kg ¹⁾	10.7
Blowing force N ²⁾	35
Max. air speed m/s	88
Max. air throughput m ³ /h ³⁾	1860
Tank volume ml	1400

¹⁾ Weight excluding fuel, fully assembled

²⁾ Combination of air speed and air throughput

³⁾ Without blower attachment/nozzle

Features

Standard

STIHL 4-MIX Engine

You can always rely on STIHL to keep setting new benchmarks this time with 4-stroke mixed lubrication technology. The STIHL 4-MIX engine, which runs on a fuel-oil mix just like a 2-stroke, offers the benefits without the compromises of 4-stroke power. STIHL 4-MIX engine technology provides fast acceleration, more power, added torque, lower noise, reduced emissions and increased fuel efficiency to complete jobs quickly, quietly and more easily.

Blower tube with adjustable length

The blower tube can be fully adjusted to the size of the user or to suit the job.

Tool-free adjustment of the handle position

The handle position can be quickly changed without any tools for an optimal fit with the size of the user.

STIHL Anti-Vibration System

Intense vibration at the handles of power tools can lead to longer-term effects of blood vessels in the hands and arms. STIHL have therefore developed an effective anti-vibration system where by the oscillations from the machines engine are dampened which significantly reduces vibrations at the handles.

Multi-function control handle

This houses all the engine controls. Easy, comfortable thumb-operated control means the operator's hand never leaves the handle.
