February 2022 Newsletter

## FEBRUARY GARDEN TIPS

- Watch for areas of dead or bare grass due to weeds or garden pests. There is still time to touch up these spots with fresh lawn seed and fertiliser to have your lawn looking fresh and healthy again in no time.
- As much as plants love the rain and warm weather for growth so do the weeds. Make sure to keep on top of them before the take over and starve plants of nutrients from the soil
- Now is the time to be planting vegetables such as lettuce, tomato, radish, capsicum and cucumber for those summer salads.
- Rats and other vermin will begin to shelter in warm sheltered areas and will need to be monitored and controlled to prevent your garden being overrun.

## DATES TO REMEMBER

- 1 February:** Chinese New Year
- 3 February:** The Day Music Died (1959)
- 14 February:** Valentines Day

Check out our Facebook page and Website for all of the great specials we have on our online store.
